WASH and CARE

Eucalan is our eco-friendly cleaning product, safe and effective for your most delicate lingerie to your family pet! It is a non-toxic, biodegradable, phosphate free, alternative to dry cleaning! The natural lanolin enriched formula helps naturally condition fibers and keep static away. The best part, it is a NO RINSE product. The formula is low-sudsing which helps protect delicate fibers and saves time and water. This also helps some of the essential oil scent remain on the item. Eucalyptus is a natural moth and flea inhibitor: great for wool and down, Grapefruit is a natural antiseptic: great for lingerie, swimwear and workout wear, Lavender combines them both and is the most versatile scent. It is also available with no added scent.

NEW Forever New Swimwear Wash. The unique formula is proven to neutralize chlorine and salt left in swimwear by turning it into a natural salt then washing it away. Gentle plant based cleansers remove sunscreen and body oils plus chlorine smell while preserving colors and elasticity. If you want your swimsuit to keep its color, shape and fit use a cleaner specifically designed for swimwear after every wear!
